

# A User-Centric Website for Endometriosis Nigeria

Empowering Advocacy

*“From the first draft to the final launch, LiveDigitalPro transformed our vision into a platform that speaks directly to endowarriors. The team not only designed a visually calming interface but also refined the copy with precision”*

Endometriosis and Adenomyosis for  
Professionals and Stakeholders

## CHALLENGE

EndoMetriosisNG needed a modern, accessible website to:

- ▶ Educate the public about endometriosis symptoms, treatments, and advocacy.
- ▶ Provide a trusted hub for patients, and medical professionals.
- ▶ Simplify content updates for their small, non-technical team.

## STRATEGY

Create a website that balances medical authority with approachable design, empowering the client to manage content effortlessly.

## KEY TACTICS

- ▶ End-to-End Development
- ▶ User-First Design
- ▶ Client Empowerment
